---

### Professional Summary

Motivated Java Full Stack Developer fresher with hands-on experience in Java, Spring Boot, HTML, CSS, JavaScript, and SQL. Developed academic and internship projects involving frontend, backend, and database integration. Seeking an entry-level opportunity to apply technical skills and contribute to software development projects

---

### Core Skill

**Programming & Frameworks:** Java, Spring Boot, Spring MVC, HTML5, CSS3, JavaScript

**Backend & Architecture:** REST APIs, MVC Architecture, CRUD Operations, Backend Validation.

**Databases:** MySQL, SQL.

**Flutter (Beginner):** Hands-on experience developing basic E-commerce web applications.

**Tools & Technologies:** Eclipse, IntelliJ IDEA, VS Code, MySQL Workbench, Git, GitHub.

**Development Concepts:** OOP, SDLC Basics, Debugging, Testing, Responsive Web Design.

---

### Professional Experience

**Completed Java Full Stack Development – 6 Months Course in Cadpoint Institute.**

#### Java Full Stack Intern

- Completed a 1-month intensive internship in Java Full Stack Development, gaining hands-on experience in Core Java, Object-Oriented Programming (OOP), and backend development concepts.
- Worked on database integration and backend connectivity while developing practical full stack development skills.

#### React JS Intern at Srishti Innovative Computer Systems Technopark, Thiruvananthapuram | 1 month

- Completed a 1-month internship in React JS with hands-on experience in frontend web development.
- Developed basic React JS applications and gained knowledge in component-based architecture, responsive UI design, and JavaScript fundamentals.

#### Full Stack Web Development Intern at AK InfoPark, Nagercoil | 2 Week

- Completed a 2-week Full Stack Web Development internship with hands-on experience in frontend and backend technologies.
- Developed responsive web applications and gained practical knowledge of web development concepts.

---

### Project

#### Smart-Coaching Institution Management Portal

- Developed a responsive coaching institution portal with an interactive interface for managing course details and student-related information.
- Designed a user-friendly interface for better accessibility and user experience.
- Designed and implemented mobile-friendly web pages using HTML, CSS, and JavaScript to ensure seamless user experience across devices. (LIVE DEMO: <https://responsive-coaching-portal-with-wha.vercel.app/>)

#### Remaining Useful Life Predictor For Ev Batteries Using Machine Learning

- Developed a machine learning-based system to predict the Remaining Useful Life (RUL) of EV batteries.
- Implemented data preprocessing, model training, and prediction functionalities using Python and Django.
- Designed a responsive web interface for battery health analysis and prediction visualization.

---

### Education

Bachelor of Engineering – Computer Science and Engineering  
Ponjesly College of Engineering, Nagercoil  
CGPA:7.8| Year of Graduation: 2026
